

DELUXE DOUBLE  
ROOM AT HOTEL HENRIETTE  
*Paris*

To channel the fuss-free, laidback, yet chic vibe that Parisian decor usually exudes, keep ornaments to a minimal. For pizzazz and character, go with a rich pop of colour – painted in a geometrical shape on the wall behind your bed – to make it the focal point of the room. Similarly, play around with cushions of different shapes and sizes to really add depth.

**TIP!**  
*To make the space more cohesive, choose a pair of cushions that reflect the shade of your wall. They will act as an anchor when you pick out the rest of your cushions – ensuring the colours complement each other.*
